DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 4-8 and 10-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 15, the last indent on the first page is confusing. The indent finishes by stating, "whereby carbon dioxide is desorbed from the methanol in the separator", yet the separator is not mentioned elsewhere in the indent. There is no connection made to how a line between the downstream expansion vessel to a heat exchanger causes desorption in the separator. It is further noted that in claim 15, an upstream expansion vessel is claimed, but no connections are made to the upstream expansion vessel in claim 15. Does the fluid need to pass through the upstream expansion vessel to get to the downstream expansion vessel? In the penultimate line of claims 4 and 5 and line 2 of claim 6, "the expansion vessel" is unclear as two expansion vessels have been previously claimed. The last indent of claim 14 is confusing. It is unclear what is meant by "purifying a gas fraction with further carbon dioxide rich gas fractions is obtained to the process". The claims not specifically mentioned above depend from unclear claims, so they are unclear due to their dependency.

Allowable Subject Matter

Claims 4-8 and 10-15 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Response to Arguments

Applicant's arguments with respect to claims 4-8 and 10-15 have been considered but are moot in view of the new ground(s) of rejection.

In regard to applicant's arguments 2 and 3, the addition of an expansion valve and additional heat exchangers in the reference is seen as immaterial as applicant has used open language, which permits additional components. It is further noted that the rejection relied on 4,252,548, not 4,822,393. However, arguments 1 and 4 apply to both references.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
